Management Discussion and Analysis Report

INDUSTRY OVERVIEW

NBFCs have been playing a complementary role to the other financial institutions including banks in meeting the funding needs of the economy. They help fill the gaps in the availability of financial services that otherwise occur in the unbanked & the underserved areas.

The NBFC segment has witnessed considerable growth in the last few years and is now being recognised as complementary to the banking sector due to implementation of innovative marketing strategies, introduction of tailor-made products, customer-oriented services, attractive rates of return on deposits and simplified procedures, etc.

NBFCs have been at the forefront of catering to the financial needs and creating livelihood sources of the so-called unbankable masses in the rural and semi-urban areas. Through strong linkage at the grassroots level, they have created a medium of reach and communication and are very effectively serving this segment. Thus, NBFCs have all the key characteristics to enable the government and regulator to achieve the mission of financial inclusion in the given time.

OUR INDUSTRY SEGMENT

The Non Banking Financial Companies (NBFC) Sector is still struggling for its growth in India. The NBFC Sector is doing much better all over the world as compared to Asian Countries as the general perception about NBFC in the mind of public is still hazy.

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Deferred income tax reflect the current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognised if there is virtual certainty that sufficient future taxable income will be available to realize the same.

Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

1.12 Impairment of assets:

An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimation of recoverable amount

1.13 Provisions and Contingent Liabilities and Assets:

A Provision is recognized when an enterprise has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not disclosed to its present value and are determined based on best management estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Other contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statement.

1.14 Earning per Share:

Basic earnings per share is calculated by dividing the Net Profit or Loss for the year attributable to equity share holders (After deducting taxes etc.) by the weighted average number of the equity shares outstanding during the year are adjusted for the effect.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year are attributable to equity share holders and the weighted average number of shares outstanding during the period are adjusted for the effect of all dilutive potential equity shares.

1.15 Operating

Operating Lease receipts and payments are recognized as income or expense in the statement of profit and loss as per the terms of the lease agreement.
